

# Enlarge It. Sustain It.

“Sustain without losing my tone. I wouldn't have believed it before I tried it.”

- Chris Chaney, *Jane's Addiction*

Musicians think compressor pedals are tone killers, hiss generators or just plain suck. And they're right...or at least they were until now.

Introducing the ApheX **Punch Factory** Optical Compressor Pedal and Direct Box. It makes your sound bigger without changing your tone. Attacks are enhanced. Subtle tones blossom. And sustain is long and sweet... for any instrument.

Get the size and sustain your tone deserves with a Punch Factory today!

- Clean, transparent compression for all instruments
- Subtle to extreme amounts of compression without altering your tone or breaking up
- Punch through the mix, live or studio, with enhanced tone and total dynamic control
